1

Month 1

Start by taking 2 capsules every morning, and drinking the Advanced Amino Hair Shake every afternoon at around 3:00pm. This powerful combination builds up your amino reserves giving your body all the 'building materials' it needs to produce keratin at its fastest rate.

2

Month 2

Still taking your 2 capsules a day, you will introduce the Blonde Icon Shampoo and Conditioner to your hair care regime. Washing your hair every 2 days; decant a tiny amount of shampoo (emulsified in your hands first before applying to your scalp), then apply to your roots and scalp by gently rubbing your fingertips in a criss-cross method across the entire scalp. Rinse and repeat. The conditioner can be applied as normal to the entire strand from root to tip, but remember to apply to your roots and scalp too!
Rinse with cool water.

3

Month 3 onwards...

Month 3 onwards is about consistency and maintaining a healthy hair growth regime. You will achieve this by taking 2 capsules a day, washing your hair every 2 days (remembering to use a very small amount of shampoo and focusing only on your roots) and drinking the Hair Shake every day. This regime must be maintained until you achieve your hair growth goals (and beyond!). So happy growing and remember that consistency is key!

Also available in 250ml packs, 500ml packs and family collection box sets.
